

# Hitachi Cable America Offers a Lifetime Warranty

When selecting cables for your next project and looking for the highest quality backed by the best warranty in the industry, choose a solution from Hitachi and Suttle.

Whether seeking cables for gigabit Ethernet, 10-gigabit Ethernet, VOIP or POE+, Hitachi's US made Category 5e, 6 and 6A cables are designed to exceed the applicable standards, such as TIA-568-C.2, and perform better than required.

As an indication of how confident we are in the performance of our cables, Hitachi Cable is proud to offer a lifetime warranty on all certified installations.

This warranty covers not only the Hitachi cable and Suttle connectivity but also guarantees the electrical performance of the end-to-end solution for the life of the occupied building.

**HITACHI**  
Inspire the Next

For over 30 years, Hitachi Cable America's has been hard at work designing and building the most advanced communication cables available.
