

## MediaMAX™ Contractor Kits Simplify Installation

**Create a CAT6+ home network that is secure, reliable, and easy to install**

Start with the popular MediaMAX plastic panels (15", 30", 45") at the rough-in stage, then choose a kit with all the components that meet the project scope and technology requirements. Kits include a hinged cover, distribution modules, CAT6/CAT6A jacks, and faceplates — all in one part number.

Creating the most reliable home network connectivity for today's IoT, automation and connected lifestyle is Suttle's specialty. Our panels, modules, jacks, and faceplates, are known for quality construction and reliable performance. And the new CAT6A jack offers 10 gigabit speeds for gaming and over-the-top content.

# Connectivity Kits for Any Project

- Don't forget anything!  
Each kit includes a panel cover bundled with compatible components needed to build a securely wired network.
- Our 2-part process (panel + kit) allows you to install the panel at the rough-in stage, then install the kit components at a later date.
- Three easy steps.

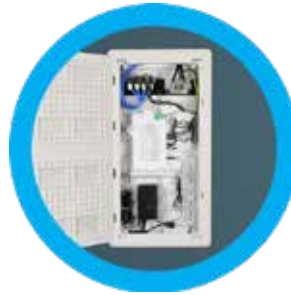

1. Select/install panel  
*(shipped separately)*

MXE-15P-G2 (15" panel)  
MXE-30P-G2 (30" panel)  
MXE-45P-G2 (45" panel)

2. Select/install connectivity kit  
*(shipped separately to meet finished assembly)*

CAT6/ CAT6A (10 Gig)  
COAX connections

3. Install cover  
*(shipped with kit)*

Protect components  
(Cover included in kit)

# Contractor Kit Parts *(items can also be ordered individually.)*

We know that each project is different. Suttle will be happy to create customized kits that meet the needs and network designs of YOUR project. Contact Suttle sales to create your own kit with the mix of components that you need.

## Panels

**MXE-15P-1G2** 15" Panel

**MXE-30P-1G2** 30" Panel

**MXE-45P-1G2** 45" Panel

## Accessories

**MXE-ACC-1** CPE Mounting Kit - 1 equipment shelf, 2 equipment brackets, 2 cable spools, 2 tie brackets, 4 cable ties, 12 screws

## Data

**STAR6APDJ** CAT6A 10 Gig data jack, 10-Gig, 500MHz bandwidth, 8-position, 8-conductor, 568A/B wiring, standard 110 IDC, includes colored bezels.

**STAR6000C6T** CAT6 Tool-less data jack, 1 Gig, 250MHz bandwidth, 8-position, 8-conductor, 568A/B, tool-less IDC, includes colored bezels.

**SAM-SP8** 8 - Port patch module

## Video

**SAM-RFH4** 1 x 4 COAX RF splitter module, 3GHz

**SAM-RFH8** 1 x 8 COAX RF splitter module, 3GHz

**STAR500F-C-85** F81 COAX connector, 3GHz

## Faceplates

**FD-11-SCR-85** 1 - Port faceplate, screw-on

**FD-12-SCR-85** 2 - Port faceplate, screw-on

**FD-11-SNO-85** 1 - Port faceplate, snap-on

**FD-12-SNO-85** 2 - Port faceplate, snap-on

## Cover

**MXE-15C-1G2** 15" Hinged Vented Cover

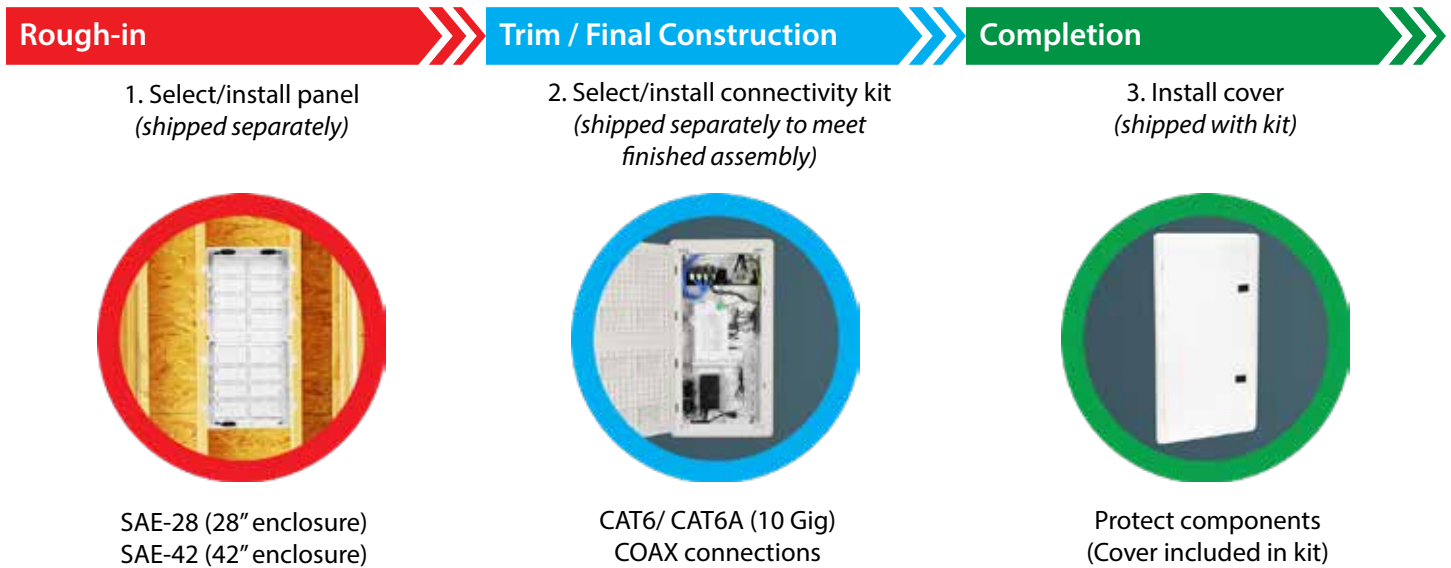

**MXE-30C-1G2** 30" Hinged Vented Cover

**MXE-45C-1G2** 45" Hinged Vented Cover
